Zinman, B. 49(A)
Zirinis, P. 49(A)
Zofková, I. 187

A

acanthosis nigrans 23
acarbose 329, 377, 404, 430
  effect on postprandial serum lipids 377
  effect on tissue lipoprotein lipase 377
ACE, see angiotensin converting enzyme
acromegaly 553
ACTH, see adrenocorticotropic hormone
Addison's disease 319, 351
Addisonian crisis 116
  diagnostic pitfalls 116
adenine nucleotides 1
  erythrocyte plasma membrane 1
    diabetic hamsters 1
    NIDDM 1
adenoma 177
  adrenal 177
  steroid-secreting adrenal cortical 177
    ultrastructure 177
adipocytes 202, 633, 685
  cultured mature white 685
    regulation of leptin production 685
  human 394
    effect of CL316,243 on lipolysis 394
  mechanism of action of glimepiride 469
  rat 394, 751
    brown 751
      detection of leptin 751
    effect of CL316,243 on lipolysis 394
    white 751
      detection of leptin 751
  regulation of lipoproteim lipase activity by GH 202
adipose tissue 7, 202, 573, 619, 642, 690, 711
  development 573
  human 690
    omental 690
      leptin mRNA levels 690
    subcutaneous 23, 690
      leptin mRNA levels 690
      paucity of fat 23
  lipoma 7
adiposity 674, 732
  leptin 674
  subcutaneous 751
adrenal adenoma 177
adrenal androgen levels 152
  effect of insulin 152
adrenal cells 374
  rat 374
    steroidogenesis 374
      effect of calcium channel blockers 374
adrenal cortex 177
adrenal cortical cells 351
adrenal insufficiency 319
  Addison's disease 319
adrenal swelling 116
  bilateral 116
    diagnostic pitfalls 116
adrenalitis 353
β-adrenoceptors 633
  role in leptin expression 633
β_3-adrenoceptor agonist 394
  effect on lipolysis of adipocytes 394
adrenocortical insufficiency 319
adrenocortical steroidogenesis 177
adrenocorticotropic hormone (ACTH) 105, 116, 142, 374, 599, 613
  effect of epinephrine on plasma level 142
  effect of norepinephrine on plasma level 142
  influence of arginine vasopression 599
  steroidogenesis in rat adrenal cells 374
adrenogenital syndrome 177
adrenoleukodystrophy 319
  adult-onset X-linked 319
    absence of circulating adrenal autoantibodies 319
adult-onset blindness 367
age differences 101
  effect of galanin on GHRH-induced GH release 101
aging 679
  effect on leptin gene expression 679
albuminuria 367
alcohol consumption 150
aldosterone 116, 177, 183, 250
alkylating agents 302
allopregnanolone 65
allylestrenol 16
amino acids 582
  porto-arterial concentration differences 582
    effect of IGF-1 582
amniotic fluid 39
  endothelin-1 levels 39
    gestation diabetes mellitus 39
amyloid goiter 27
  presenting as hypothyroidism 27
    CT scan 27
    MRI 27
    scintigraphy 27
    ultrasonography 27
AN 69 hydrogel microtube 47, 61, 62
  islet encapsulation 47, 61
androgens 381
androstanediol glucuronide 381
  chronic pancreatitis patients 381
  pancreatic cancer patients 381
androstenedione 152, 193, 562
androsterone 190
  radioimmunoassay 190
  serum level in children 190
anemia 352
  pernicious 351
angiotensin I 227, 250
angiotensin II 147, 183, 227, 250
  intrarenal production 227
angiotensin converting enzyme (ACE) 227, 250
  activity in diabetics 250
  activity in nephropathy 250
  inhibitor 227
animal experiments
  Chinese hamster 1
    spontaneously diabetic 1
  guinea pigs 227
  mouse 47, 296, 306, 619, 633, 679, 694
    db/db mouse 653
    NOD mouse 287, 289, 296
    NON mouse 669
    ob/ob mice 642, 653, 659, 694
    streptozotocin diabetic 44, 47
  pigs 44, 582
    newborn 582
  rabbits 323
  rats 16, 37, 75, 81, 122, 150, 211, 220, 223, 248, 257, 315, 377, 392, 592, 613, 633, 664, 685
    diabetic BB rat 299
    ethanol consumption 150
    hepatic glycosyltransferases 37
      effect of noethindrone 37
    hyperresponse to insulin after islet allotransplanation 60
    insulin treated 392
    islet xenograft rejection 43
    obese 199
      fa/fa (Zucker) rats 271, 642, 664, 685
    ovariectomized 171
    Psammomys obesus 165
    streptozotocin diabetic 35, 45, 47, 60, 75, 81
    uterine estrogen receptors 16
      effect of contraceptives 16
  rhesus monkey 674
    spontaneously obese 674
  sheep 202
animal models 296
  for basic research 296
  for disease 296
anorexia 638
antagonist 215
  of glucagon action 215
anterior pituitary hormone levels 599
antiandrogen 562
antibodies 402
  antileptin 402
antidiabetic tablets 89
antiestrogens 171
antihypertensive agents 549
antileptin antibodies 402
anti-thyrotropin receptor antibodies 280
  Graves' disease 280
APECED 353
apolipoprotein B 384
  hyperthyroidism 384
apolipoprotein C-II 384
  hyperthyroidism 384
apoptosis 311
  cell visualization 311
    in-situ end labelling with 5-bromo-2-deoxyuridine 311
appetite 704
  effect of leptin 704, 708
arginine 553, 582
arginine-vasopressin 599
  influence on ACTH 599
  influence on FSH 599
  influence on GH 599
  influence on LH 599
  influence on prolactin 599
  influence on TSH 599
ascites 183
  peritonitis carcinomatosa 183
ATG induction therapy 52
  after pancreas-kidney transplantation 52
atherosclerosis 95, 558, 603
  diabetes mellitus 95
ATP 545

ATPase activity 1
erythrocyte plasma membrane 1
diabetic hamsters 1
NIDDM 1
ATP-binding cassette 138
ATP-sensitive K-channel 20, 456, 464, 488, 496, 512
human vascular 512
effect of tolbutamide 512
atrial natriuretic peptide 183
autoantibodies 332, 351
glutamic acid decarboxylase 332
insulin 332
islet 332
tyrosine phosphatase 332
autoantigens 351
autocrine regulation 257
rat model 257
autoimmune endocrine disease 351
autoimmune polyendocrine disease 353
autoimmunity 296, 299, 319, 351, 353, 357
diabetes mellitus type 1 332
azathioprine 52

B

B (beta or β) cells 44, 58, 302, 445, 456, 464, 588, 674
βTC-6 cells 44
exposure to high glucose level 44
calcium signalling 588
effect of octreotide 588
effect of somatostatin 588
effect of glimepiride on function 445
GLUT2 immunoreactivity 58
insulin immunoreactivity 58
mechanism of action of glimepiride 464
responsiveness 674
leptin 674
repair 302
ultrastructure 58
B-lymphocytes 280
CD5-B subset 280
Graves' disease 280
CD5+B subset 280
Graves' disease 280
benign prostatic hyperplasia 562
effect of finasteride 562
benzoic acid derivatives 404
biguanides 89, 404
biomembranes 306
microencapsulated islets 306
blood flow 211, 512
effect of central IGF-1 211
forearm 512
blood glucose 248, 267
assay 527
non-invasive 527
during hypothermia in rats 248
ethanol-consuming rats 150
blood pressure 32, 211
effect of central IGF-1 211
premenopausal women 32
conicity index as predictor 32
body mass index 724, 732
chronic renal failure 724
hypothalamic surgery 728
spinal cord injured 732
body sway 159
body weight 619, 664, 718
effect of leptin 659, 664
serum leptin level 718
bovine serum albumin 119
conjugated to estradiol 119
bradykinin 250
brain 65, 653
localization of leptin 653
oxytocin systems 65
5-bromo-2-deoxyuridine 311
bromocriptine 171
brown adipose tissue 122, 392
rat 255
dopamine content 122
effect of cold exposure 122

C

C-peptide 48, 445
levels after pancreas transplantation 48
CA19-9 381
Ca^{2+}, see also calcium
Ca^{2+}-ATPase activity, Chinese hamsters 1
Ca^{2+}-sensing receptor 541
calcium 588
channel blockers 374
effect on steroidogenesis in rat adrenal cells 374
signalling 588
pancreatic β-cells 588
effect of octreotide 588
effect of somatostatin 588
parathyroid cells 588
effect of octreotide 588
effect of somatostatin 588
cAMP 215, 374
steroidogenesis in rat adrenal cells 374
candidiasis 353
chronic 353
superficial 353
recurring monocutaneous 353
captopril 227
effect on renin release 227
carbohydrate metabolism 230
NIDDM 230
cardiomyocytes 508
effect of glimepiride 508
cardioprotection 512
cardiovascular activity 496
glimepiride 496
sulfonylureas 496
cardiovascular disease 603
β-carotene 558
catalase 302
catecholamines 142, 183
catheter occlusions 43
implantable insulin pumps 43
catheterization 582
caveolae 469
CD23 133
low affinity IgE receptor 133
soluble 133
serum level in Graves' disease 133
cell differentiation 582
influence of IGF-1 582
cell proliferation 582
influence of IGF-1 582
central nervous system (CNS) 211, 319, 653, 642, 664
demyelination 319
localization of leptin 653
role of leptin 664
cephalic insulin release 276
cerebral thrombosis 242
and oral contraceptives 242
children 190, 573, 708
obese 573, 798
environmental aspects 573
genetic aspects 573
leptin level 708
effect of dexamethasone 708
pathogenesis 573
serum androsterone levels 190
chimeras 215
hGR/glucagon-like peptide I receptor 215
Chinese hamster 1
ovary (CHO) cells 215
chlorpromazine 205
cholesterol 377
chronic renal failure 724
serum leptin level 724
chronic thyroiditis 27
circadian rhythm 315
thyroid hormones 315
circular dichroism 649
leptin 649
CIV395.7A 215
CL316,243 394
effect on lipolysis of adipocytes 394
CMP-sialic:asialofetuin sialyltransferase 37
rat liver 37
CNS, see central nervous system
cold adaptation 633
leptin expression 633
cold exposure 122, 255
effect on dopamine content 122
rat brown adipose tissue 122
collagen 592
pregnant rat uterus 592
effect of estrogens 592
effect of mifepristone 592
effect of progesterone 592
effect of tamoxifen 592
collagenase 58
endotoxin-like activity 58
collagenase class II 56
inhibition by University of Wisconsin solution 56
complement-dependent antibody-mediated cytotoxicity 11
computed tomography (CT) 27
amyloid goiter presenting as hypothyroidism 27
confocal laser scanning microscopy 311
congenital generalized lipodystrophy 23
aberrant fragment in growth hormone gene cluster 23
conicity index 32
premenopausal women 32
predictor of blood pressure level 32
predictor of insulin concentration 32

predictor of triglyceride concentration 32
risk indicator for hyperlipidemia 32
Conn's syndrome 177
α-conotoxins 535
amino acid sequence 535
similarity with insulin 535
structure 535
contraceptives 16
effect on uterine estrogen receptor 16
Conus geographicus 535
Conus magnus 535
corticosteroid 156
corticosterone 65, 613
corticotropin releasing hormone (CRH) 105
cortisol 105, 116, 142, 177, 205, 237, 714
plasma levels 142, 205, 237, 714
daily variations 237
effect of metyrapone 237
depressed patients 714
effect of epinephrine on plasma level 142
effect of norepinephrine on plasma level 142
schizophrenia patients 205
salivary 105
craniopharyngioma 728
hypothalamic 728
Cushing's disease/syndrome 105, 177, 565, 711
increased serum immunoreactive leptin levels 711
intermittent 105
cycloheptadine 220
cyclosporine A 51, 52
cysteine 582
cytofluorometry 11
cytokines 302, 351, 367
diabetic complications 367
cytokine pattern 296
cytokine superfamily 649
leptin 649
cytotoxicity 11
complement-dependent antibody-mediated 11

D

dehydroepiandrosterone (DHEA) 152, 190, 570
effect on IL-8 release from peripheral blood mononuclear cells 570
dehydroepiandrosterone sulfate (DHEAS) 152, 190
denervation 75
2-deoxyglucose 271
depression 714
cortisol 714
growth hormone 714
growth hormone binding protein 714
insulin 714
leptin plasma levels 714
desogestrel 242, 245
dexamethasone 209, 210, 570, 685, 704, 708
effect on circulating leptin level in children 708
effect on circulating leptin level in humans 704, 708
effect on IL-8 release from peripheral blood mononuclear cells 570
effect on leptin production 685
effect on parathyroid hormone-related protein secretion 209, 210
effect on Walker carcinosarcoma 256
growth 209, 210
diabetes mellitus 23, 267, 367
and foot pressures 159
gestational 39
amniotic fluid endothelin-1-levels 39
insulin-resistant 23
late complications 367
diabetes mellitus type 1 (insulin dependent; IDDM) 11, 42, 43, 46, 49, 50, 52, 63, 86, 95, 128, 207, 286, 287, 289, 299, 302, 331, 340, 348, 351, 357, 361, 388, 549
angiotensin-converting enzyme activity 250
B-cells 302
defence mechanism 302
repair mechanism 302
children 63
chronic autoimmunity 332
combined insulin/sulfonylurea treatment 86
effect of oral nicotinamide 35
epidemiology 337, 340, 344, 348
etiology 337
genetic findings 289, 344
growth hormone hypersecretion 207
immunology 286, 331, 344
incidence in Baltic Sea area 337
islet transplantation 52
metabolic follow-up 52
juvenile new onset 86
MHC class II genes 287
Na/K ATPase ouabain binding sites 128
non-MHC genes 289
out-patient follow-up 49
pathogenesis 361
platelet aggregation 95
prevention 361
regional distribution 340
young adults in Sweden 348
risk factors 337
T cell immunity to GAD 357
transplantation 44
human hepatoma cells engineered for proinsulin production 44
diabetes mellitus type 2 (non-insulin dependent, NIDDM) 1, 49, 81, 89, 150, 165, 215, 230, 329, 403, 413, 419, 426, 430, 434, 440, 445, 451, 456, 464, 469, 512, 517, 522, 541, 595, 607, 619, 638, 674, 690, 737
alcohol abuse 150
angiotensin-converting enzyme activity 250
carbohydrate metabolism 230
Chinese hamsters 1
combined glibenclamide/metformin therapy 89
combined glibenclamide/phenformin therapy 89
combined therapy with sulfonylurea + evening insulin 430
combined sulfonylurea/biguanide therapy 89
glibenclamide therapy 451
effect of acute exercise on metabolic control 451
glimepiride therapy 451
effect of acute exercise on metabolic control 451
glucose metabolism 165
hepatic glucose production 165
hyperlipidemic 230
fish oil supplementation 230
gemfibrozil treatment 230
insulin sensitivity 595
leptin levels in offspring 737
nasal insulin 49
pathogenesis 404
prevalence 404
reversible insulin resistance 440
risk groups 434
role of sulfonylureas 517, 522
secondary therapy failures 430
serum lipoprotein A 607
Japanese patients 607
TNF-α levels in offspring 737
treatment 404
costs 404
diabetic foot 159
diabetic nephropathy 388, 549, 724
erythrocyte Na-H antiport activity 388
serum leptin level 724
diabetic neuropathy 128, 159
diazoxide 512
dihydrotestosterone 152, 562, 381
1,25-dihydroxyvitamin D 209, 210
effect on parathyroid hormone-related protein secretion 209, 210
effect on Walker carcinosarcoma 256
growth 209, 210
diltiazem 374
disulfide bond 649
leptin haemopoietic cytokine fold 649
DNA fragmentation 311
DNA synthesis 267
peripheral blood mononuclear cells 267
effect of elevated glucose 267
docosahexaenoic acid 230
dopamine 122, 150, 255
agonists 171
content 122
rat brown adipose tissue 122
effect of cold exposure 122
ethanol-consuming rats 150
turnover 122
rat brown adipose tissue 122
effect of cold exposure 122
dopamine-beta-hydroxylase 122
dual energy X-ray absorptiometry 732
relationship between plasma leptin and body fat 732
dystrophy 23
congenital generalized 23

pancreas-kidney transplantation 52
induction therapy with ATG 52
morbidity 52
pancreatic B and islet cells, see B cells and islets

pancreatic cancer 381
differential diagnosis to chornic pancreatitis 381
serum level of androstanediol glucuronide 381
pancreatic islets, see islets of Langerhans
pancreatitis 381
chronic 381
differential diagnosis to pancreatic cancer 381
serum level of androstanediol glucuronide 381
papain 111
paraplegia 732
plasma leptin 732
parathyroid cells 588
calcium signalling 588
effect of octreotide 588
effect of somatostatin 588
parathyroid gland 588
parathyroid hormone (PTH) 111, 588
hydrolysis by detergent-solubilized rat meprin 111
hydrolysis by papain-solubilized rat meprin 111
parathyroid hormone-related protein 209, 210
effect of 1,25-dihydroxyvitamin D on secretion 209, 210
effect of dexamethasone on secretion 209, 210
parietal cells 351
gastric mucosa 351
peripheral blood mononuclear cells 267, 570
DNA synthesis 267
effect of elevated glucose 267
IL-2 production 267
effect of elevated glucose 267
IL-6 production 267
effect of elevated glucose 267
IL-10 production 267
effect of elevated glucose 267
TGF-β1 267
effect of elevated glucose 267
peritonitis carcinomatosa 183
ascites formation 183
resistance to natriuresis 183
phenformin 89
phentermine 404
phentolamine 20
phenylalanine 582
phosphocreatine 545
phospholipase C (PLC) 469
pilocarpine 57
pinacidil 20
inhibition of insulin secretion 20
pituitary 257
pituitary ACTH dependent hypercortisolism 105
diagnosis 105
pituitary adenoma 728
pituitary hormones 114
pituitary immunoreactive prolactin cells 171
effect of tamoxifen 171
pituitary microadenomas 105
pituitary-adrenal axis 142
pituitary-adrenal secretion 142
placenta 615
late-term 615
mitochondrial DNA deletion 615
placental leucine aminopeptidase (P-LAP) 147
maternal serum 147
plantar pressure 159
and diabetic foot ulceration 159
plasma lipids 230
plasma plasmoginen activator inhibitor-1 antigen 603
hyperlipoproteinemia 603
plasma tissue-type plasminogen activator factor 603
antigen 603
hyperlipoproteinemia 603
plasminogen activator factor 1 (PAI-1) 522
platelet aggregation 95
diabetes mellitus type 1 95
polycystic ovary 23
syndrome 152
polyendocrinopathy 353
polymorphism 541
human Ca^{2+}-sensing receptor gene 541
Japanese subjects 541
portal circulation 582
porto-arterial concentration difference 582
positron emission tomography 205
schizophrenia patients 205
hypothalamus energy metabolism 205
prednisone 51, 52
preeclampsia 147
pregnancy 48, 52, 81, 147, 252, 592
after pancreas transplantation 52
hyperinsulinemia 252
influence of sex steroids 592
uterine connective tissue metabolism 592
systolic/diastolic ratio of umbilical artery 147
prenylamine 374
preoptic area, medial 119
oxytocin release 119
progesterone 65, 177, 193, 257, 592
effect on collagen content 592
pregnant rat uterus 592
17-hydroxy- 193
progestogens 242, 245
programmed cell death 311
high resolution imaging 311
proinsulin 48, 522
levels after pancreas-kidney transplantation 48
proinsulin, 32-33 split 48
levels after pancreas-kidney transplantation 48
prolactin 171, 599
effect of tamoxifen on serum level 171
influence of arginine-vasopression 599
Promedos implantable insulin pump 50
multicenter trial 50
promoter 633
propranolol 685
prostate 562
steroid concentrations 562
protein kinase C 367
protein metabolism 53
after liver transplantation 53
proteinuria 607
Psammomys obesus 165
puberty 257
galanin gene expression in GnRH neurons 257
pulmonary embolism 242
and oral contraceptives 242
pulsed Doppler 147

R

radioimmunoassay 190, 704
insulin 704
leptin 708, 711, 724
serum adrosterone levels in children 190
rat adrenal cells 374
steroidogenesis 374
effect of calcium channel blockers 374
recovery 545
from exercise 545
regional differences 690
leptin mRNA levels in abdominal adipose tissue 690
regional distribution 337
IDDM 337
relaxins 535
remnant-like particles 329
triglyceride concentration 329
effect of acarbose 329
renal artery 211
renal glomerulum 367
renal nerves 183
natriuetic effect of ANP 183
renin 183, 227
release 227
effect of captopril 227
reproduction 257
neuroendocrine basis 257
respiratory quotient 659
effect of leptin 659
retina 220, 367
rat 220
release of THR 220
effect of serotonin 220
retinopathy 128
reversible insulin resistance 440
NIDDM 440
rheumatoid arthritis 27
RIPE3b1 insulin gene transcription activator 44
binding activity 44
effect of high glucose levels 44
risk factors 337
IDDM 337

S

salivary cortisol 105
schizophrenia 205
energy metabolism of hypothalamus 205
plasma cortisol levels 205

scintigraphy 27
amyloid goiter, presenting as hypothyroidism 27
secretin 613
effect on hypothalamo-pituitary-adrenal axis 613
selenium 223
selenium deficiency 223
effect on thyroid hormone metabolism 223
semithin sections 311
mouse jejunum 311
sensory stimulations 276
serotonin 220
effect on release of THR from rat retina 220
sex steroids 257
galanin gene expression in GnRH neurons 257
short stature 565
growth hormone deficiency 565
simvastatin 193
effect on testicular function 193
hypercholesterolemic males 193
skeletal muscle 545
insulin mediators 545
isometric exercise 545
small intestine 582
smooth muscle 488
sodium excretion 183
soleus muscle 75
GLUT4 protein content 75
effect of exercise 75
effect of denervation 75
somatomedin C 156
somatostatin 237, 553, 588
effect on calcium signalling 588
pancreatic cells 588
parathyroid cells 588
sorbitol 367
spinal cord injury 732
stanazolol 187
steroidogenesis 374
effect of calcium channel blockers 374
steroids 65
membrane effects in brain 65
streptozotocin 75
neonatal treatment of rats 81
structure-function analysis 649
leptin 649
succinic acid monomethyl ester 59
sulfonylureas 86, 89, 403, 426, 430, 434, 445, 451, 456, 464, 469, 488, 508, 512
cardiovascular effects 496
combination therapy with insulin for IDDM 86
glycemic effect 456
mechanism of action 456
ion channel effects 488
mechanism of action 456, 464, 469
role in NIDDM 517, 522
sulfonylurea receptors 456, 464
brain 488
cloning 456
isolation 456
relationship with ATP-sensitive K-channel 456
sulpiride 205
superior mesenteric artery 211
superoxide dismutase 302
suppression test 708
SUR1 (drug-binding subunit, (cell ATP-sensitive K-channel) 456
synaptosome-containing homogenates 119
systemic lupus erythematosis 187
systolic/diastolic ratio 147
umbilical artery 147

T

T3 (or T_3), see triiodothyronine
T4 (or T_4), see thyroxine
T cells 294, 299, 357
T lymphocytes 187, 267, 299
CD4+/CD8+ subsets 187
effect of bilateral oophorectomy 187
self antigens 294
tamoxifen 171, 592
effect on collagen content 592
pregnant rat uterus 592
effect on pituitary immunoreactive prolactin cells 171
effect on serum prolactin level 171
effect on uterine growth 171
pituitary effects 171
technetium scintigraphy 27
amyloid goiter, presenting as hypothyroidism 27
testicular function 193
hypercholesterolemic males under simvastatin treatment 193
testosterone 152, 193, 381, 562
free 193
effect of simvastatin 193
testosterone/dihydrotestosterone ratio 381
TGF, see transforming growth factor
Th1/Th2 296, 299
thallium scintigraphy 27
amyloid goiter presenting as hypothyroidism 27
thermogenesis 659
effect of leptin 659
thermogenin 122
thiazolidenediones 404
threonine 582
thromboembolism 242, 245
and oral contraceptives 242, 245
thrombosis 242
deep vein 242
and oral contraceptives 242
thromboxane B_2 95
thymocyte differentiation 294
thymus 294
central tolerance 294
thyroid dysfunction 323
thyroid follicular cells 351
thyroid gland 323
effect of lithium 323
on function 323
on morphology 323
thyroid hormones 223, 280, 315
circadian rhythm 315
effect of feeding pattern in food-restricted rats 315
Graves' disease 280
metabolism 223
influence of selenium deficiency 223
influence of zinc deficiency 223
thyroid peroxidase 351
thyroid stimulating hormone (TSH, thyrotropin) 315, 323, 553, 599
thyroiditis 351
autoimmune 351
thyrotoxicosis 351
neonatal 351
thyrotropin (TSH) 315, 323, 599
effect of lithium 323
influence of arginine-vasopression 599
thyrotropin receptor 280
antibodies 280
Graves' disease 280
thyrotropin-releasing hormone (TRH) 220, 553
rat retina 220
effect of serotonin 220
thyroxine (T_4) 223, 280, 315, 323, 351
effect of lithium 323
effect of selenium deficiency 223
effect of zinc deficiency 223
Graves' disease 280
tissue distribution 653
tissue spectroscopy 527
TNF-α, see tumor necrosis factor
α-tocopherol 558
tolbutamide 512
transcription 633
transforming growth factor β (TGF-β) 367
diabetic complications 367
transforming growth factor-β1 (TGF-β1) 267
peripheral blood mononuclear cells 267
effect of elevated glucose 267
transport molecules 138
TRH, see thyrotropin releasing hormone
triacylglycerols 377
triglycerides 32, 329, 732
premenopausal women 32
conicity index as predictor of concentration 32
remnant-like particles 329
effect of acarbose 329
triiodothyronine (T_3) 223, 315, 323
effect of lithium 323
effect of selenium deficiency 223
effect of zinc deficiency 223
Graves' disease 280
tryptophan 582
TSH, see thyrotropin
tumor necrosis factor (TNF) 685, 737
effect on leptin production 685
offspring of NIDDM patients 737
Turner's syndrome 23
tyrosine hydroxylase 122

U

ulcerative colitis 565
Ulmer Zuckeruhr 63
ultrasonography (US) 27
amyloid goiter presenting as hypothyroidism 27
ultrastructure 177

cortical tissue 177
steroid-secreting adrenal cortical adenoma 177
umbilical artery 147
waveforms 147
University of Wisconsin solution 56
inhibition of class II collagenase 56
urinary cGMP excretion 183
uterine growth 171
uteroplacental blood flow 147
role of P-LAP in regulation 147
uterus 65, 171, 592
effect of tamoxifen on growth 171
oxytocin systems 65
pregnant rat 592
connective tissue metabolism 592
effect of estrogens 592
effect of mifepristone 592
effect of progesterone 592
effect of tamoxifen 592

V

valine 582
vascular smooth muscle 271
glucose transport 271
regulation by insulin 271
vasopressin 147, 599
verapamil 374
vibration perception threshold 159
vipoma 60
visceral fat 751
vitamins 558

W

waist to hip ratio 32
risk indicator for hyperlipidemia 32
Walker carcinosarcoma 256 209, 210
effect of dexamethasone on growth 209, 210
effect of 1,25-dihydroxyvitamin D on growth 209, 210
weight loss 698, 718
serum leptin level 698, 718

X

X-linked adrenoleukodystrophy 319
xenoreactive antibodies 43
role in islet xenograft rejection 43

Z

zinc 223
zinc deficiency 223
effect on thyroid hormone metabolism 223
